# VENTURA SECURITIES LIMITED

## SERVICES OFFERED

At present the Portfolio Manager is offering investment and advisory services to its prospective clients. The investment objectives and policies including the types of securities in which it generally invests have been clearly and concisely outlined in the document for easy understanding of the potential investors as follows:

### **A) Ventura Multicap Portfolio Management Scheme (VMPPM)**

#### **Investment Objective**

Deliver Superior returns over a 36-month horizon with a target IRR of 18%

#### **Investment Strategy**

Build and Invest in hand-picked, alpha-enhancing portfolios attuned to the medium-term prognosis of global, economic and fundamental aspects. The stock selection shall take into consideration macro trends, sectoral outlook, individual company plans, financials and valuation coupled with evaluation of potential risks.

The portfolio shall hold minimum 50% in large cap stocks and the balance in mid cap (upto 35%) & small cap (upto 15%) with prudent individual stock specific and sectoral limits. Specific individual stock exposure cap of 10% and sectoral cap of 30% shall be applicable. The fund may hold upto 20% in liquid funds at any point.

#### **Securities generally considered for Investment by the Portfolio Manager and Benchmark.**

- The portfolio shall comprise Listed Equity, Convertible instruments and liquid mutual funds.
- The broad benchmark for the strategy shall be the BSE 500 index.

#### **Fee structure :**

	Existing Tariff Plan					New Tariff Plan			
	Mgmt. fee	Hurdle rate	Performance fee (carry)	Exit Load (3 years)		Mgmt. fee	Hurdle rate	Performance fee (carry)	Exit Load (3 years)
<b>Fixed fee (FFS)</b>	2.0%	0%	0%	3 / 1.5 / 0.5	<b>New Fixed fee (NFFS)</b>	1.5%	0%	0%	2 / 1.5 / 1
<b>Partly Variable fee (PVFS)</b>	1.25%	10%	20%	3 / 1.5 / 0.5	<b>New Partly Variable fee (NPVFS)</b>	0.45% Year 1; NIL thereafter	7%	25%	2 / 1.5 / 1

#### **Revised fee structure below:**

Two options –

- a. Fixed Fee of 1.5% per annum at quarterly rests on average AUM of quarter
- b. Variable Fee
  - i. Base fixed component of 0.45% for the first year only; NIL thereafter
  - ii. Hurdle Rate 7% (on high water mark principle)
  - iii. Performance Fee share of 25% on returns exceeding Hurdle Rate in each financial year (April-March) or part thereof

## **VENTURA SECURITIES LIMITED**

---

Exit Load : 2% in the initial 12 months, 1.5% in the next 12 month period, 1% in subsequent twelve months and NIL thereafter.

**Risk Factors to this Investment Approach:**

The Risk Factors for VMPM would be broadly similar to that for any MultiCap Portfolio.

**Investment Horizon**

36 months

### **B) Ventura Siddhartha Best in Class (VSBC)**

**Investment Objective**

Ventura Siddhartha Best-in-class strategy aims for capital appreciation with a 5 years perspective. The best-in-class companies are defined as market leaders in sectors of large opportunity with an ability to sustain growth through free cash flows.

**Investment Strategy**

To invest in Best in Class Businesses where growth is available at a reasonable price. A bottom up approach is used for selection of companies applying a combination of qualitative and quantitative analysis. The selection is benchmark agnostic, and seeks compelling opportunities positioned to benefit from growth themes.

The strategy will follow a practice of not having exposure to any stock above 20% of the AUM at any point in time as a prudent measure of risk management.

**Securities generally considered for Investment by the Portfolio Manager and Benchmark.**

- The strategy will be investing in listed instruments, i.e. Equities and Liquid Mutual Funds.
- The strategy will benchmark its performance against the Nifty 50.

**Fee structure: (The Fee structures for VSBC remain unchanged)**

Upfront fees : 0%

Management Fees :

- i. Base fee: 2% per annum
- ii. Performance fee: 10% profit share above hurdle rate of 10% for each financial year or part thereof.

Exit fees : 1% in first year and thereafter nil.

**Risk Factors to this Investment Approach:**

The Risk Factors for VSBC would be broadly similar to that for any Large + Midcap Portfolio.

**Investment Horizon**

5 years

### **C) Ventura Portfolio Advisory Service (VPAS)**

#### **Investment Objective**

To provide well-analysed investment advice for each client synchronised with their personal goals, based on periodic (typically monthly) evaluation of the portfolio, to enhance returns with a 1-2 year perspective.

#### **Investment Strategy**

VPAS shall provide non-binding advice to the client across two main asset classes viz. Equity, Debt, including Direct investment in Securities or via Mutual Funds route. Such advice may or may not be acted upon, at the clients' sole discretion.

#### **Securities generally considered for Investment by the Portfolio Manager and Benchmark.**

VPAS shall provide advice to clients across various categories of investments such as –

- i. Direct Equity comprising listed shares on BSE/ NSE with a Market capitalisation above Rs. 1000 crores (on date of initial advice)
- ii. Listed Debentures and Bonds on BSE/ NSE
- iii. Open and Close Ended Mutual Funds encompassing Equity, Balanced, Arbitrage, Debt, Bond and Liquid schemes; these would be as per the Regular option
- iv. IPOs / FPOs / Rights issues / Buyback offers
- v. Exchange Traded Funds (ETF) listed in BSE/ NSE or NYSE / Nasdaq / UK / European Stock Exchanges
- vi. The investment advice shall be mainly based on a fundamental assessment though technical analysis may also be relied upon as appropriate.
- vii. Specific exclusions are Derivatives (F&O), Commodities, Unlisted securities

#### **Fee structure: (The Fee structures for VPAS revised as under)**

0.30% per annum of the AUM charged on quarterly basis. NO exit load is applicable. The AUM is considered at the end of the quarter.

#### **Risk Factors to this Investment Approach:**

The risk profile shall broadly be on the lines of a Balanced Fund

#### **Investment Horizon**

1-2 years

### **D) Ventura Micro Cap Thematic Portfolio Management Scheme (VMIT)**

#### **Investment Objective**

To generate a target IRR of 18% (in INR terms) over a 36 – 60 months' time period through investments in Listed Securities.

#### **Investment Strategy**

The key to portfolio outperformance is to invest based on strong and objective research and market analytics. The tenets of our research are firmly embedded in the ability to extensively mine data, conduct primary research and then adopt an unbiased and systematic approach to analyzing all the

## VENTURA SECURITIES LIMITED

---

available information. This ensures that we have a comprehensive understanding of the sectors, markets and geographies at play, which consequently helps us use this research to form prudent and value accretive strategies. This bottom-up long-term investment style shall be further underscored by a focus on understanding the business model and quality, depth of management. As a PMS we are not hesitant to invest in small and micro-cap stocks where we see favourable long term potential. Our approach is to replicate in the public markets, a typical PE approach to listed Microcap and Smallcap companies. The scheme shall be sector agnostic and focused on companies listed on the main board of BSE and / or NSE.

**The idea is to Identify and curate a concentrated portfolio of 2 to 10 stocks which may give good returns with a holding horizon of 36-60 months.**

The portfolio shall be fairly concentrated but with a weightage cap of upto 50% for a single stock and it will not be sector specific. The aggregate Holding of the VMIT scheme in any portfolio company shall not exceed 22% of that company's fully paid-up equity share capital.

### **Securities generally considered for Investment by the Portfolio Manager and Benchmark.**

- Investments shall comprise Listed Equity, Liquid mutual funds / ETF.
- The reference Benchmark for the scheme is the BSE 500 Index.
- Companies with Market capitalization between INR 300 to 3500 Crores and
- VMIT can invest in loss making companies who are on the verge of a potential turnaround on the basis of our Research. This approach is based on the tenet 'while bad times could befall any company or business, backing a good management going through a bad patch could be a good investment.'
- Any Investor who seeks early exit (before 36 months) shall be given his/ her portfolio transferred *as is* to their personal Demat account.
- The aggregate Holding of the VMIT scheme in any portfolio company shall not exceed 22% of that company's fully paid-up equity share capital.

### **Fee structure : (The Fee structures for VMIT remain unchanged)**

- Fixed component @ upto 1% per annum levied on quarterly rests
- Variable component
  - Applicable after a threshold return of 10% p.a. is delivered on high water-mark basis
  - Of the return above threshold in any financial year, 20% shall accrue to the Fund Manager by way of performance incentive.

Exit load: In view of the proposed Portfolio approach, the Exit Load charges shall be 3% for the initial 12 months, 2% for the next twelve months and 1% for the subsequent twelve months; thereafter no exit load shall be applicable.

### **Risk Factors to this Investment Approach:**

It may be noted that the risk profile of the scheme shall be commensurate with the above approach to selection of securities for investment. These specifically include risks arising from concentration, liquidity, credit rating and in general are subject to market risks.

### **Investment Horizon**

36-60 months

## VENTURA SECURITIES LIMITED

---

- (ii) **The policies for investments in associates/ group companies of the Portfolio Manager and the maximum percentage of such investments therein subject to the applicable laws/ regulations/ guidelines.**

Exposure of all three schemes mentioned herein above in this Disclosure Document to associate/ group companies shall be NIL

### **RISK FACTORS**

- (i) Securities investments are subject to market risks and there can be no guarantee against loss resulting from an investment nor there any assurance that the objectives will be achieved.
- (ii) The past performance of the Portfolio Manager does not indicate the future performance of the Portfolio Manager.
- (iii) Risk arising from the investment objective, investment strategy and asset allocation is as follows:

Trading volumes and settlement periods may restrict the liquidity of the portfolio. Different settlements of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. Delays or other problems in settlement of transactions could result in temporary periods when the assets are un-invested and no return is earned thereon. The inability of the Portfolio Manager to make intended securities purchases, due to settlement problems, could cause the Portfolio to miss certain investment opportunities. By the same token, the inability to sell securities held in the portfolio, due to the absence of a well-developed and liquid secondary market for debt securities, would result at times, in potential losses to the Portfolio, should there be a subsequent decline in the value of securities held in the portfolio.

The liquidity and valuation of the Portfolio's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment.

Corporate debt securities are subject to the risk of an issuer's inability to meet interest and principal payments on its debt obligations (credit risk). Debt securities may also be subject to price volatility due to factors such as changes in interest rates, general level of market liquidity and market perception of the creditworthiness of the issuer, among others (market risk). The Portfolio Manager will endeavor to manage credit risk through in house credit analysis. The Portfolio Manager may also use various hedging products from time to time to reduce the impact of undue market volatility on the portfolio.

The value of the portfolio, to the extent invested in fixed income securities, will be affected by changes in the general level of interest rates. When interest rates decline, the value of a portfolio of fixed income securities can be expected to rise. Conversely, when interest rates rise, the value of a portfolio of fixed income securities can be expected to decline

As with any investment in securities, the value of the portfolio can go up or down depending on various factors that may affect the values of the investments. In addition to the factors that affect

## VENTURA SECURITIES LIMITED

---

the value of individual securities, the value of the portfolio can be expected to fluctuate with movements in the broader equity and bond markets and may be influenced by factors affecting capital markets in general, such as, but not limited to, changes in interest rates, currency exchange rates, changes in governmental policies, taxation, political, economic or other developments and increased volatility in the stock and bond markets.

Subject to necessary approvals as may be required and within the investment objectives of the Portfolio, the Portfolio Manager may invest in overseas markets, which carry a risk on account of fluctuations in foreign exchange rates, nature of securities market of the country concerned, repatriation of capital due to exchange controls and political circumstances.

As and when the Portfolio Manager trades in the derivative products, there are risk factors and issues concerning the use of derivatives that investors should understand. Derivatives require the maintenance of adequate controls to monitor the transactions and the embedded market risks that a derivative adds to the portfolio. Besides the price of the underlying asset, the volatility, tenor and interest rates affect the pricing of derivatives. Other risks in using derivatives include but are not limited to:

- a) **Credit Risk** - this occurs when a counterparty defaults on a transaction before settlement and therefore, the Portfolio Manager is compelled to negotiate with another counter party, at the then prevailing (possibly unfavorable) market price, in order to maintain the validity of the hedge. For exchange traded derivatives, the risk is mitigated as the exchange provides the guaranteed settlement but one takes the performance risk on the exchange.
- b) **Market Liquidity risk** where the derivatives cannot be sold (unwound) at prices that reflect the underlying assets, rates and indices.
- c) **Model Risk**, the risk of mispricing or improper valuation of derivatives.
- d) **Basis Risk** arises when the instrument used as a hedge does not match the movement in the instrument/underlying asset being hedged. The risks may be inter-related also; for e.g. interest rate movements can affect equity prices, which could influence specific issuer/industry assets.

**(iv) Risk arising out of non-diversification**

The investment objectives of one or more of the Portfolio Management could result into concentration on a specific asset/asset class / sector / issuer etc., which could expose the portfolio to improper and/or undesired diversification.

- (v) There have been no transactions in securities by Ventura Securities Ltd and its employees directly involved in investment operations having conflict of interest with the transactions in any of the client's portfolio except as mentioned below.**

\*\* The above figures indicate the actual performance for the mentioned period based on the dates of accounts opened for each client per product.

### AUDIT OBSERVATIONS

There have been no negative observations pointed out by the Internal auditors for any of the preceding 3 years from the date of this disclosure document for Ventura Securities Ltd – Portfolio Management Operations.

### NATURE OF EXPENSES

#### a) Investment management and advisory fees

The fee to be charged may be a fixed fee or a return-based fee or a combination of both as detailed in Schedule IV to Portfolio Manager and Client Agreement at the time of account opening will be intimated to each client.

## **VENTURA SECURITIES LIMITED**

---

### **b) Custodian Fees/Depository Fees**

The charges relate to opening and operation of Depository Accounts, custody and transfer charges for securities, dematerialization and rematerialization and other charges in connection with the operation and management of the Depository Accounts and the same would be recovered.

### **c) Registrar and Transfer Agent Fees:**

Charges payable to registrars and transfer agents in connection with transfer of securities including stamp duties, cost of affidavits, notary charges, postage stamp and courier charges and other related charges would be recovered.

### **b) Other Charges**

In addition, Goods and Services Tax (GST) was made effective from July 1, 2017. Pursuant to this enactment, instead of Service Tax, the GST rate on Brokerage and Investment Management Fees has been fixed at 18%.

### **Mode and frequency of payment of the above charges**

Above fees/charges will be payable on a quarterly basis; within 15 days from the end of the quarter or as per the terms agreed with the investor. The investor will have the choice of paying the amount by way of a cheque or authorize the Portfolio Manager to recover the amount directly from the account.

### **Brokerage and transaction cost**

Stock broking services of **M/s. Systematix Shares & Stocks India Ltd. and M/s. Ventura Securities Limited** will be utilized for executing the order/ trade related to PMS services. Brokerage and other charges will be applicable and brokerage will be not more than 0.15% with minimum of 5 paise per share. All charges and costs incidental to the management of the portfolio will be borne by the client which includes bank and all charges levied by the depository participants.

## **TAXATION**

The Client shall be liable for all tax liabilities arising out of his investments in securities and availing services hereunder. In view of the individual nature of tax consequences, the Client is best advised to consult his/her/their tax advisor / consultant for appropriate advice on tax treatment. The Portfolio Manager shall not be responsible for assisting in or completing the fulfillment of the client tax obligations.

## **ACCOUNTING POLICIES**

The Portfolio Manager shall follow the accounting policies in respect of portfolio investments of the clients as detailed below:

The Portfolio Manager, shall keep and maintain proper books of accounts, records and documents, for each client so as to explain transactions for each client and to disclose at any point of time the financial

## **VENTURA SECURITIES LIMITED**

---

position of each of the client and in particular give a true and fair view of the state of affairs of the Portfolio for each client.

For the purposes of the monthly report to the Client, the Portfolio Manager shall mark all investments to market and disclose the realized and unrealized gains.

Dividend income shall be recognized, not on the date the dividend is declared, but on the date the share is quoted on an ex-dividend basis. For investments, which are not quoted on the stock exchange, dividend income would be recognized on the date of declaration.

In respect of all interest-bearing investments, income shall be accrued on a day-to-day basis as it is earned. Therefore, when such investments are purchased, interest paid for the period from the last interest due date up to the date of purchase should not be treated as a cost of purchase but shall be debited to interest Recoverable Account. Similarly, interest received at the time of sale for the period from the last interest due date up to the date of sale must not be treated as an addition to sale value but shall be credited to Interest Recoverable Account.

In determining the holding cost of investment and the gains or loss on sale of investments, the "FIFO" method shall be followed.

Transaction for purchase or sale of investments shall be recognized as of the trade date and not as of the settlement date, so that the effect of all investments traded during a financial year are recorded and reflected in the financial statements for that year. Where investment transactions take place outside the stock market, for example, acquisition through private placement or purchases or sales through private treaty, the transaction would be recorded in the event of a purchase, as of the date on which the Client obtains an enforceable obligation to pay the price or, in the event of a sale, when the Client obtains an enforceable right to collect the proceeds of sale or an enforceable obligation to deliver the instruments sold.

Bonus shares shall be recognized only when the original shares on which the bonus entitlement accrues are traded on the stock exchange on an ex-bonus basis. Similarly, rights entitlements shall be recognized only when the original shares on which the rights entitlement accrues are traded on the stock exchange on an ex-right basis.

Where income receivable on investments has accrued but has not been received, provision shall be made by debiting to the revenue account

The cost of investments acquired or purchased shall include all such costs incurred for affecting such acquisition/purchase. In respect of privately placed debt instruments any front-end discount offered shall be reduced from the cost of the investment.

The accounting policies and standards as outlined above are subject to changes made from time to time by Portfolio Manager. However, such changes would be in conformity with the Regulations.

## VENTURA SECURITIES LIMITED

### INVESTOR SERVICES

- (i) **Name, address and telephone number of the investor relation officer who shall attend to the investor queries and complaints.**

**Mr. D.P. Singh**

I-Think Techno Campus, 8th Floor, B Wing, Off Pokhran Road No.2, Eastern Express Highway, Thane, Maharashtra – 400607. Email id: complaints@ventura1.com – Tel No. 022 6754 7055
